

## PHARMACY SAVINGS CARD

The Pharmacy Savings Card delivers significant discounts on both brand name and generic drugs at over 60,000 pharmacies nationwide. The discounts range from 10% to 85% off of the average wholesale price of the drug—average savings is over 41%.

Even for those with insurance cards, many prescriptions aren't covered—cosmetic drugs, appetite suppressants, smoking cessation prescriptions, prenatal vitamins, inject-able supplies, contraceptive devices, immunizations, vaccines and many more. Our card covers them all. We even cover human medications prescribed for pets.

#### Other Features:

- Everyone in the family can use the same card.
- There are no limits to how many times the card can be used.
- There are absolutely no fees to use this card.
